# HealthCatalyst®

# All Healthcare Decisions Should Be Data-Informed

Health Catalyst is a leading provider of data and analytics technology and services to healthcare organizations, committed to being the catalyst for massive, measurable, data-informed healthcare improvement.

## Health Catalyst Delivers Results Using These Core Solutions:

**DOS™ (Data Operating System),** which combines features of data warehousing, clinical data repositories, and HIEs to integrate real-time, granular data into a single computing ecosystem.

**Applications, analytics tools, and interoperability** optimized to identify and improve the most important clinical, financial, operational, and shared-risk opportunities within any health organization.

**Professional services** proven to help systematically structure, prioritize, and deploy continuous improvement processes across organizations for meaningful, lasting outcomes.

Our cloud-based data platform is powered by data from more than **100 million** patients and encompasses **trillions** of facts.

## Real Results

Health systems have improved care and saved millions in costs with Health Catalyst solutions:

》 $74 million in operational improvements.

》 45.3% relative reductions in severe sepsis mortality rate.

》 $14.99M reduction in denials and avoidable write-offs.

》 Reduced surgical site infections by 22%.

》 $2M supply chain savings.

》 Reduced LOS: patients had >1,000 additional nights at home.

》 Daily versus monthly activity-based costing database updates.

## Scalability

Using an agile, healthcare-specific data model, Health Catalyst addresses needs for a range of organizations: IDNs, academic medical centers, children's hospitals, payer organizations, smaller hospitals, physician groups/clinics, employer/employee health programs, and the life science industry.

## Proven Expertise

We have more than 200+ Customer Success Stories across clinical, operational, and financial outcomes improvements
